THE PRESENT NORTHAMPTON AREA JOINT HIGH SCHOOL

FOREWORD

In 1956 we began our first year in the Senior High School. We entered with eager anticipation for the vast knowledge that awaited us here, not realizing that in four years we would be the last Senior Class to graduate from this building of many memories.

Although we had hoped to complete our Senior year in the newly constructed high school, we are not so disappointed as we would have been were we as young and unwise as in our youth. But with the acquisition of knowledge in youth we have also acquired wisdom in age so that we are able to comprehend and accept such disappointments.

Thus, we have chosen for our theme "Wisdom" which is depicted by the "wise old owl" who, we hope, will guide you well through our **1960 Amptennian.**

OUR FACULTY

Hail to the teachers
of Northampton High,
Always upholding
our class to the sky.

Helping us ever
to go on our way,
Through all our classes
we grow day by day.

Let it be Math or
English or Latin,
History, Science,
we're sure to have had 'em.

Math's greatest problems
we tackle with glee,
Spanish and German
we speak fluently.

In sports we excel,
our coaches, the best,
In most every game
we lead all the rest.

Baseball and football
highlight our field,
Basketball, wrestling
our indoor shield.

Executive people
work hard every day,
Planning a program
of work and of play.

So we pay tribute
to our faculty,
The greatest, the best,
in the whole country.

—Sabina Leiby

The Men of the Northampton Area Joint School Committee are **seated from left:** First Vice President John Dreisbach, Mr. Schmickly, President Darle Strohl, Superintendent Dr. George A. Eichler, Second Vice President Russell Becker; **Standing:** Russell Kowalyshyn, Woodrow Lindenmoyer, George A. Bennis, Treasurer Raymond A. Newhard, Joseph George, Rennard Sutliff, Arthur W. Schaffer, and Guy Rice. Absent from picture are Luther Schlegel, Secretary Howard G. Raubenhold, and Solicitor Jerome W. Burkepile, Jr.

THE BOARD OF EDUCATION

The men of the Northampton Area Joint School Committee are the Wise Men who sit in council to make the solemn and momentous decisions concerning our school district.

They not only strive to employ the best caliber of men and women in the administration of our schools and for the instruction of us students, but they also look to the future with wisdom and keen insight, which can be seen by their planning and constructing a new and larger high school for the rapidly growing school population.

While the population is increasing in the Borough of Northampton it is also growing in the individual districts which, by their consolidation, have placed the problems and decisions of our Northampton Area Joint School Committee on a larger and broader scale.

Even as the problems increase for our Board of Education so increase the wisdom and foresight of these unsung and unheralded men who give us the best education possible through their patient, untiring efforts.

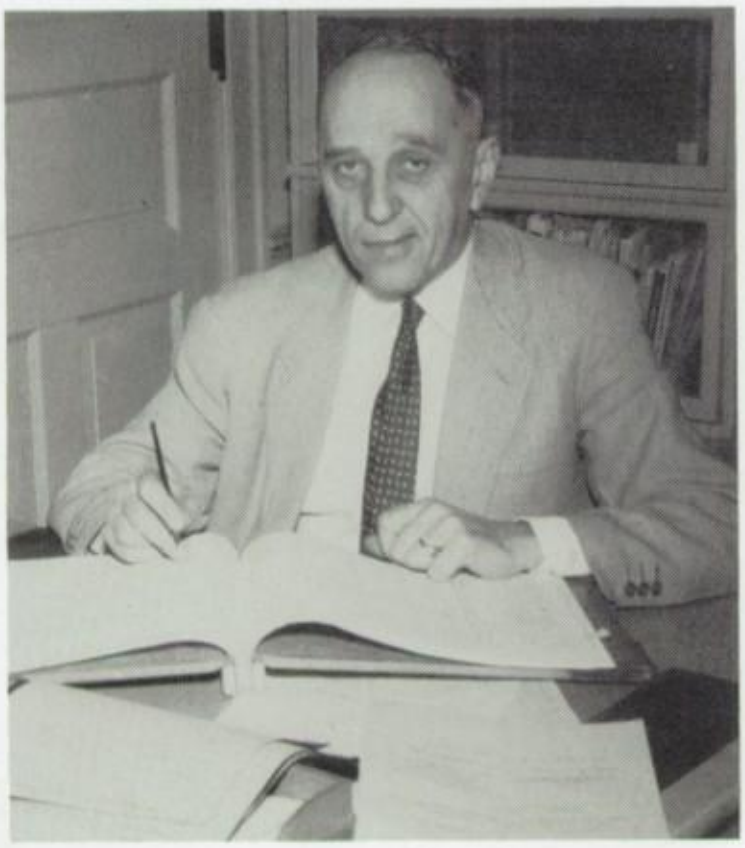
May we profit from the example set by these men so that we, as the future citizens of Northampton, may serve our community as willingly and unselfishly as the present Northampton Area Joint School Committee.

GEORGE A. EICHLER, A.B., M.A., Ed.D.
Superintendent of Schools

Dr. Eichler, our school superintendent for the past thirty years, has eminently served and administered the educational program of our Area. But he has not confined his illustrious service to us alone. The new issue of "Who's Who in the East" includes a description of Dr. Eichler's activities and services in scouting, religion, education, Chamber of Commerce, Rotary Club, music and forensics, charity drives and veteran activities. Due to his prominence in the field of education, Dr. Eichler was chosen along with thirty other prominent educational leaders in the United States, to make a tour of the Soviet Union. The purpose of the trip was to study the Soviet educational program to see how it compares with our own system. With all of his outstanding accomplishments, we are certain that the completion of the new Senior High school will surely be considered among his greatest achievements. Dr. Eichler, may our schools stand out as lasting monuments in tribute to your unselfish and dedicated service to education.

CARL B. SCHMICKLY, B.S.
Business Manager

Purchasing and distributing supplies, taking care of the building maintenance, and attending and recording the minutes of the School Board meetings are a portion of Mr. Schmickly's galaxy of tasks. Being relatively new at this position in our high school, he administers all his commissions with the utmost care, and efficiency.



SECRETARIAL STAFF

Neatness, competence, and efficiency typify the zealous secretaries found working in Dr. Eichler's office. Their commissions include typing, telephoning, transcribing, and striving to keep our records up to date.

NORMAN A. LAUB, B.S., M.A.

Principal

Mr. Laub, our most capable administrator, has been the friend and leader of students throughout our school years. He is constantly serving to improve our education by guiding our lives into maturity and wisdom. His attentions are divided among inspecting fire drills, hearing student problems, and guiding the instruction of our faculty so that our school as well as its administrators, teachers, and students are held in high esteem by the community.

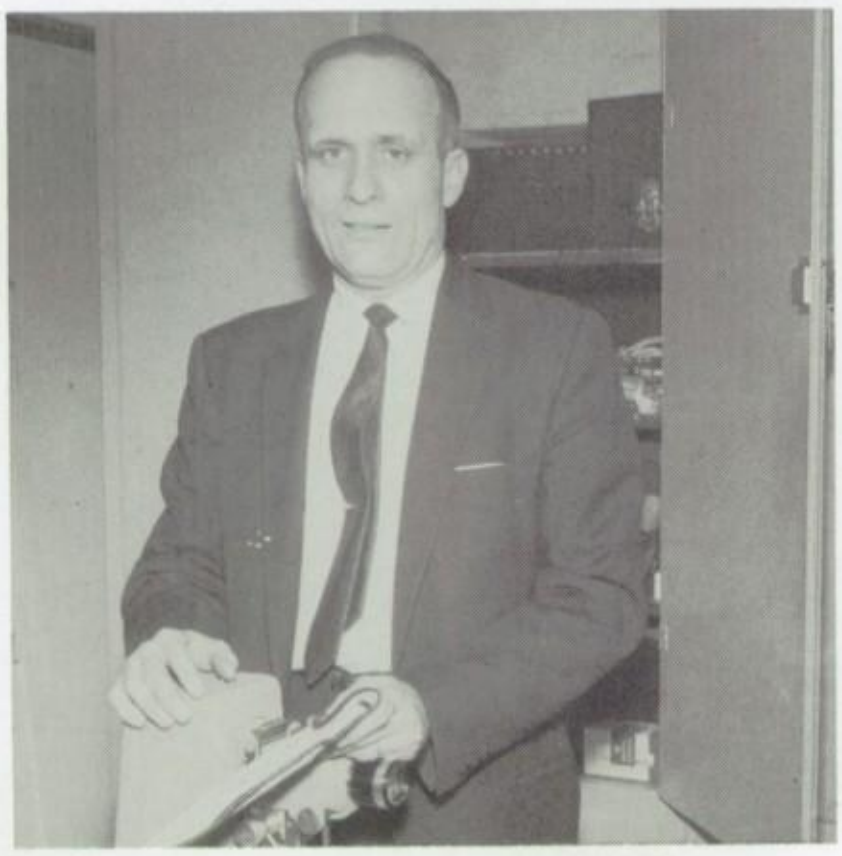
EDWIN J. BERG, A.B.

Assistant to the Principal

"The thought for the day - - - " is a synonymous phrase with Mr. Berg. Aside from making announcements every morning he aids students with problems, adjusts schedule conflicts, and undertakes administrative problems. Through his previous capacity as a teacher, Mr. Berg has gained the insight required for the absolute understanding of today's students.

ALBERT M. LERCH, B.S., M.Ed.
Guidance Director

Giving exams, interviewing, and gaining college entrances for students are a few duties undertaken by our Assistant Administrator and Guidance Counselor, Mr. Lerch. He writes educational promulgations for teachers and post graduates. His psychological aid to the individual is greatly appreciated.



SECRETARIES

Gracing the High School and Attendance Offices are Mrs. Burdelle Haines and Mrs. Mary Ann Wagner. These girls prove indispensible in keeping the offices running efficiently. Taking dictation, answering the telephone, and making appointments with the school executives comprise much of their work.

ALFRED LAUBACH, Ph.B., M.A.
Visual Aides

A friendly laugh denotes our newest addition to the senior high administrative force, Mr. Laubach, our visual aides director. His duties include providing films for various activities and classes. advising Senior Student Council, and assisting in the principal's office.

Our new teachers get acquainted before the opening of school.

Miss Laubach receives award.

A tour of the Post Office was a B-E Day activity.

Our teachers proudly display their PSEA teaching certificates.

CAFETERIA PERSONNEL

Satisfying one of our basic needs are the "culinary connoisseurs" located at the High School and Wolt Annex. Under the supervision of the dietician, Mrs. Zirinsky, they prepare and serve our meals.

Our menus, contrived by the capable dietician, are state approved balanced diets.

A necessary part of our daily life is fulfilled by Mrs. Zirinsky and her aides.

Mrs. Zirinsky plans our well-balanced meal.

Seated, from left: Mrs. Kulp, Mrs. Klotz, Mrs. Reppert, Mrs. Gardner, Mrs. Shellock, Mrs. Van Horn, Mrs. Young, Mrs. Kohler, **Standing:** Mrs. Lerch, Mrs. Tarnow, Mrs. Frack, Mrs. Holbfoerster, Mrs. Glendenmeyer, Mrs. Ebner, Mrs. Farber, Mrs. Gehret, Mrs. Kohler.

From left: Mrs. Andrews, Mrs. Newhard, Mrs. Milander
Mrs. Messenlehner, Mrs. Deily, Mrs. MacAdam.

Mrs. Lakatosh, performing one of her tasks, tallies the number of daily and weekly lunch tickets sold.

Doing the honors of keeping the boiler room tidy is Mr. Druckenmiller.

"Smokey" Lauer makes room for more refuse.

Mr. Breitfeller helps keep us warm in winter.

Cleaning — a never ending job for Mrs. Lerch and Mrs. Taschler.

MAINTENANCE PERSONNEL

The duties of our ambitious janitors and housekeepers are innumerable.

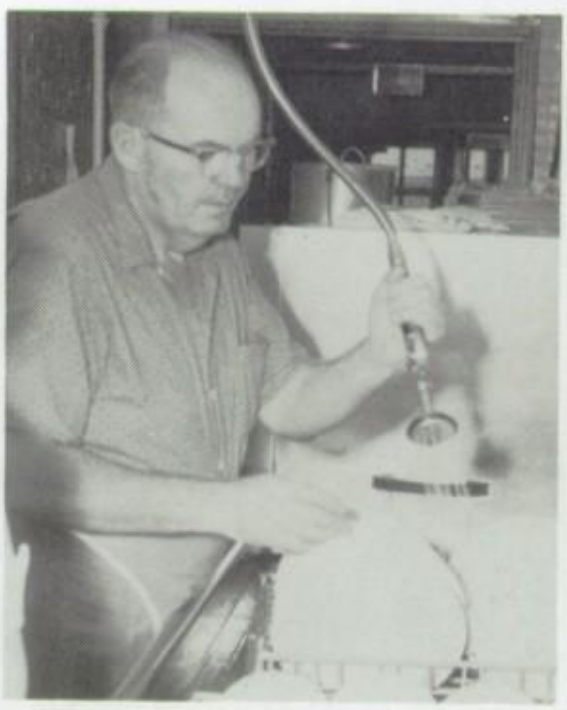
The janitors may be found fixing the furniture, washing the windows, tending the furnaces, and doing various other jobs that come to their attention.

In the evening the housekeepers arrive to clean the floors, wash the blackboards, and tidy the rooms.

Their countless labors in our school will always be appreciated.

Clipping and trimming the lawn, Mr. Stuber's job.

Mr. Young and Mr. Rehrig keep the grounds in shape.



"Skip" Nicholas keeps the dishes clean!

Miss Stettler, Mrs. Erdosy, and Dr. Miller comprise our medical staff.

MEDICAL STAFF

The doctors, nurses, and dentists play an important role in caring for the students' mental and physical health.

Mentally, they reassure the students by simply being available in time of need. Physically, the doctors, assisted by the nurses, give periodic examinations for students seeking jobs or participating in sports.

Our dental staff examines teeth, checking for cavities and oral maladjustments.

Eye and ear check-ups are given yearly to insure the health of our two most valuable senses.

We would like to pay our deepest gratitude to these fine people for their invaluable services.

Column on right, **top to bottom:** Attending to their duties are Dr. George Hrisko, Dr. Charles Moritz, Dr. Sidney Parmet, and Dr. Charles Sieger, the school dental examiners.

Miss Stettler and Dr. Miller — "No peeking."

WE'LL REMEMBER

We'll remember our dear Alma Mater
Through all the years of our life.
We'll remember the parties and dances
And the unexpected times of strife.

We'll remember the years of junior high
Where all our new friends were met.
We'll especially remember our senior high years
Which were the best — yet.

We'll remember the classes, teachers, and books
That made up our schedule for years.
We'll remember all the sports events
Which were led to victory by cheers.

We'll never forget our dear Alma Mater,
We'll remember her with tears.
We'll never forget our wonderful school
Northampton High — through the years.

Proudly we introduce our capable senior class officers — Dallas Vogel, Gloria Michael, Fred Heffelfinger, and Richard Keglovits — and our new inimitable class advisor, Mr. Louis Wolf. These very important seniors handle the majority of our class business. Planning the Class Play, Washington Trip, tabulating votes, and boosting ticket sales comprise part of their work. Their leadership guided 210 upperclassmen to achieve their diplomas. They will long be remembered as the outstanding leaders of the class of '60, the last class to graduate from the old school.

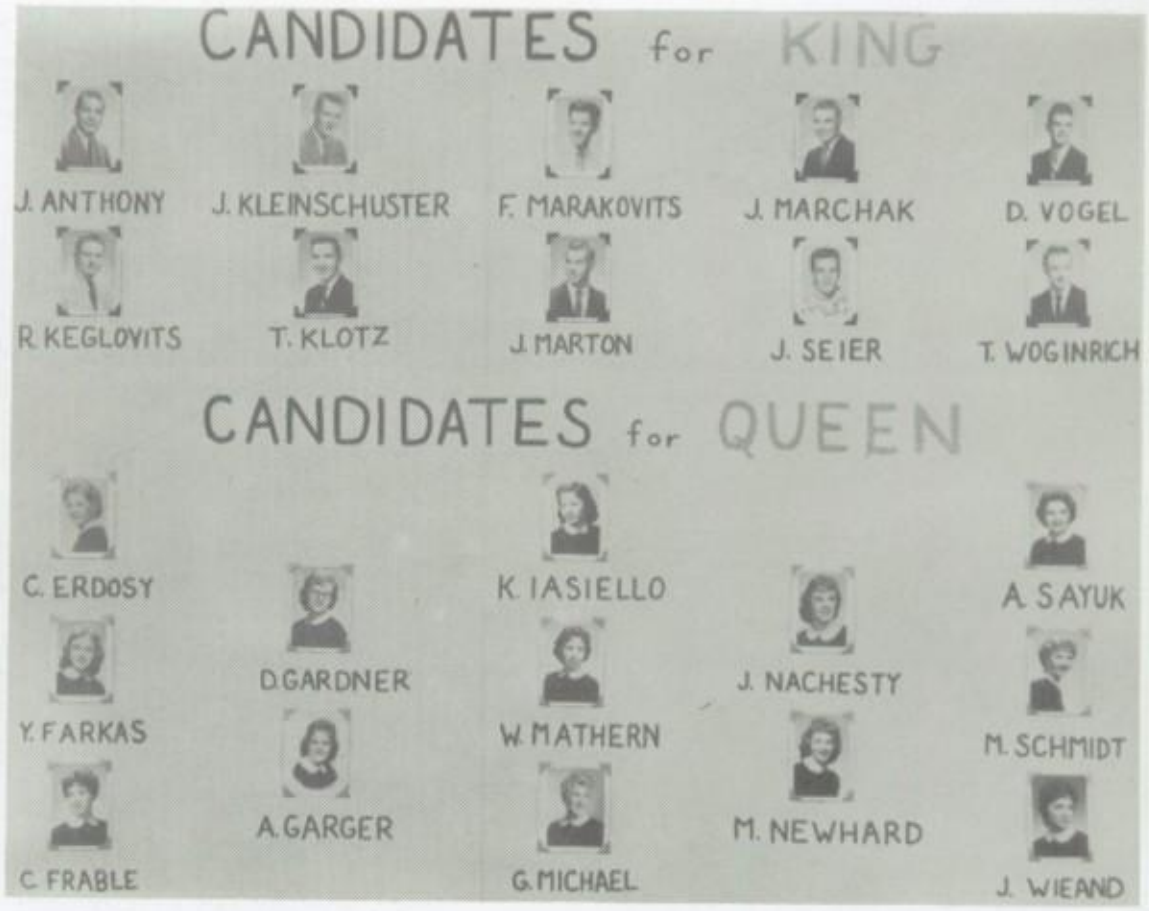
SENIOR ACTIVITIES

M-m-m-m — how high are your heels?



Who will be the lucky two?

Cheer today for tomorrow we shall win.

It was fun, but they're glad it's done.

A kiss for Santa — a gift for Bina!

These carolers sing out the joy of Christmas.

The "hands" required to produce a successful Vesper program.

Pie or cake, it is still a birthday celebration.

There is often wisdom under a shabby cloak. —Cicero

The final showing shows us all.

What happened to all the full cokes?

Who ate all the cake?

SOPHOMORE CLASS OFFICERS

Mr. Henry Weir, advisor; Charles Woginrich, President; Clarie Schmidt, Secretary; Margie Kochenash, Treasurer; Ted Zaharchuk, Vice President.

Advancing from the world of junior high school to the young adult world of senior high school was a giant step for these sedate sophomores. Learning declensions in Latin, practicing timed writings in typing, and learning the laws of physics became part of their new world. Eagerly they await another "new" world, that in which they will complete their years of high school — the new school!

CURRICULUM

P. of D. we studied each day,
Latin is not as hard as we say.
We stayed up late into the night
Hoping to get our trig. done right.

The teachers needed their work typed-up,
They left it up to us.
We helped each other out a bit,
So they didn't start a fuss.

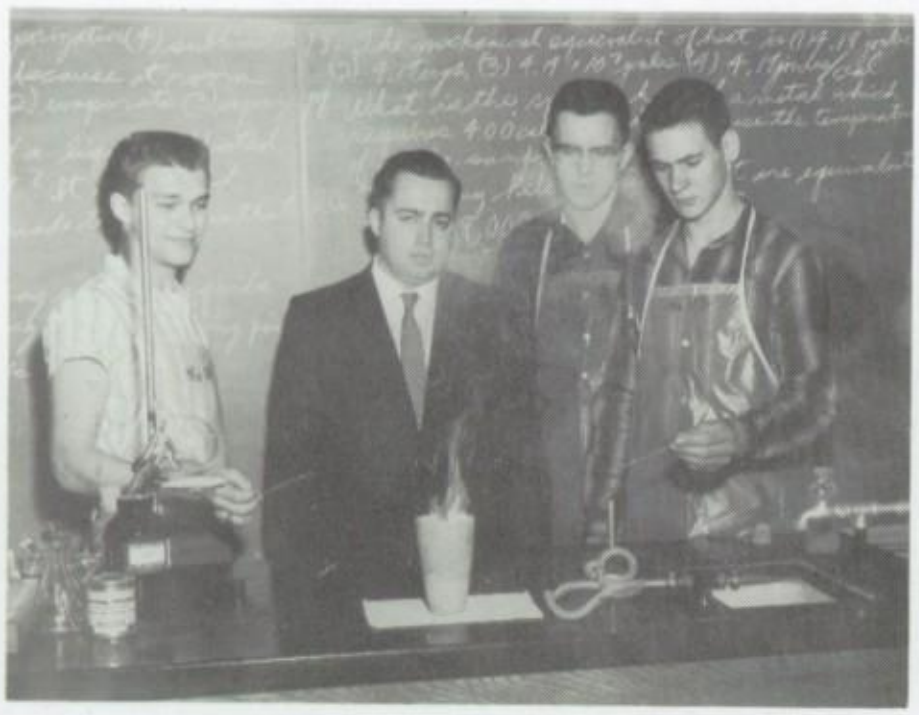
In psychology, we study the mind.
What makes us think, we hope to find.
Modern languages — Spanish and German
How often we did get a sermon.

Of course we had a dress-up week;
Everybody looked their best.
The teachers eyed us up and down,
And put us through the test.

English assignments were quite hard,
Theme papers were not to be marred.
In physics we treated teacher with tact;
We tried to make the exact science more exact.

But all in all we had our fun
Throughout our high school years.
We had a lot of ups and downs,
We'll remember them with tears.

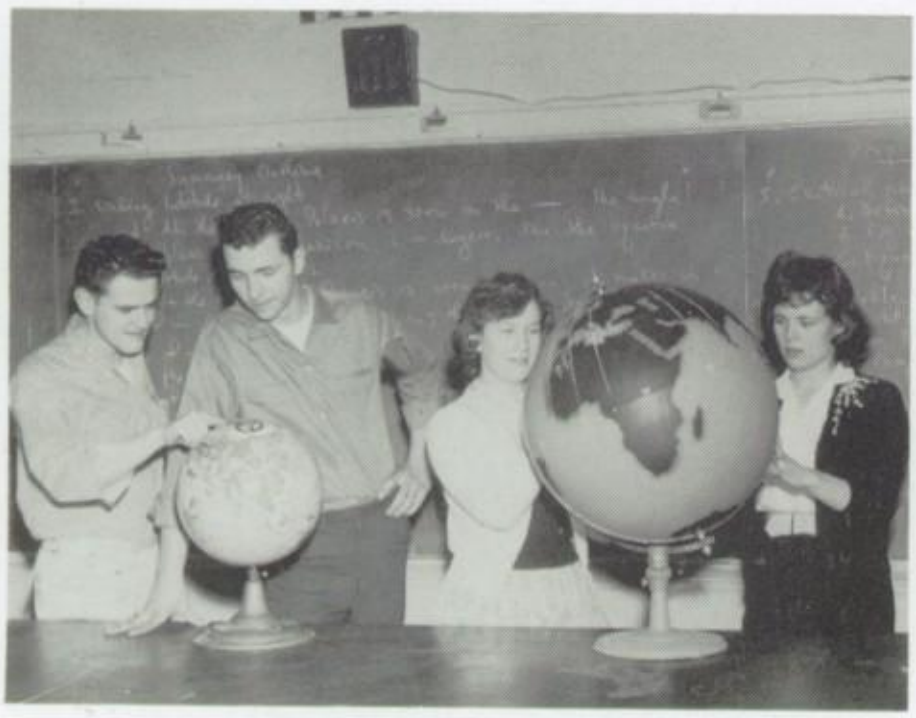
SCIENCES



Mr. Knauss shows the way for our budding scientists.

CHEMISTRY

Curiosity is the beginning of discovery. All of Mr. Kenneth Knauss's classes possess the urge to make new discoveries. Perhaps without realizing it, one sees chemical changes all around him. Through the study of this subject one acquires the skill necessary for making himself aware of these chemical changes. This science keeps abreast of the times by making the Atomic Theory and its related subjects part of its program of study.



Mr. Snyder's earth science classes taught us more of the world we live in.

EARTH SCIENCE

With the advent of the space age a stronger emphasis has been placed on science. Due to this emphasis, N.A.J.H.S. has incorporated another aspect of science — Earth Science. Geology, mineralogy, astronomy, map reading and interpretation, and meteorology are the individual fields that make up this vast field.

This year a four inch reflector-type telescope was purchased by the school for Mr. Snyder's classes. It has been used on various occasions to complement the students' knowledge of astronomy.

Around the world with Mr. Wolf in geography class.

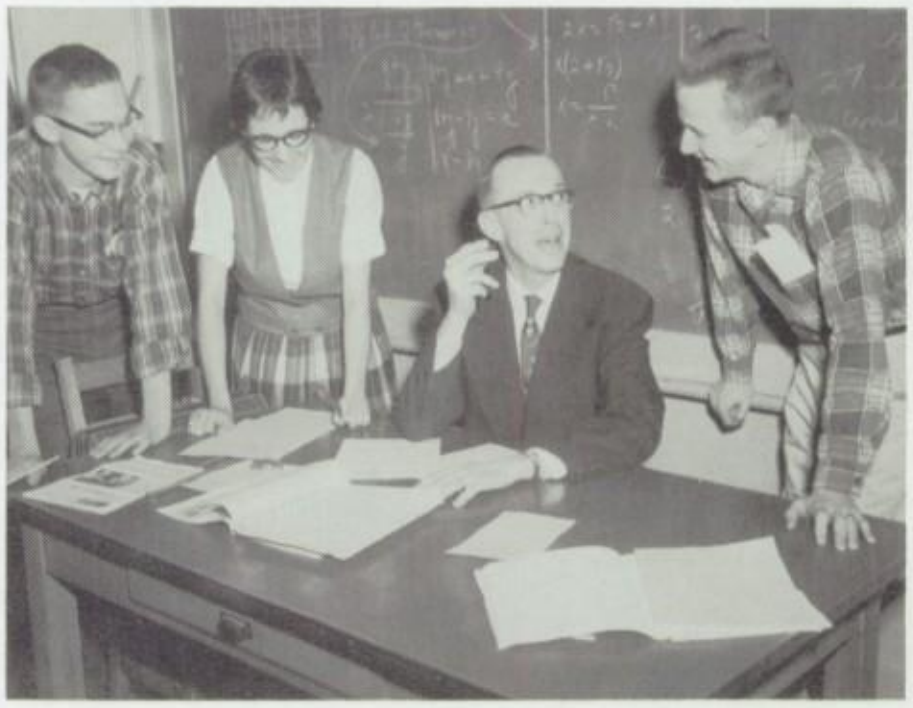
GEOGRAPHY

Learning about countries of the world, capitals, their products, topographies and problems of the inhabitants is stressed in the study of geography. The students endeavor to associate countries and their leaders in order to obtain a better knowledge and understanding of the problems facing our modern society. Studying other countries of the world gives the students a richer and fuller background which enables them to apply this knowledge they have procured to present world crises and other troubling situations which are imminent.

MATHEMATICS

TRIGONOMETRY

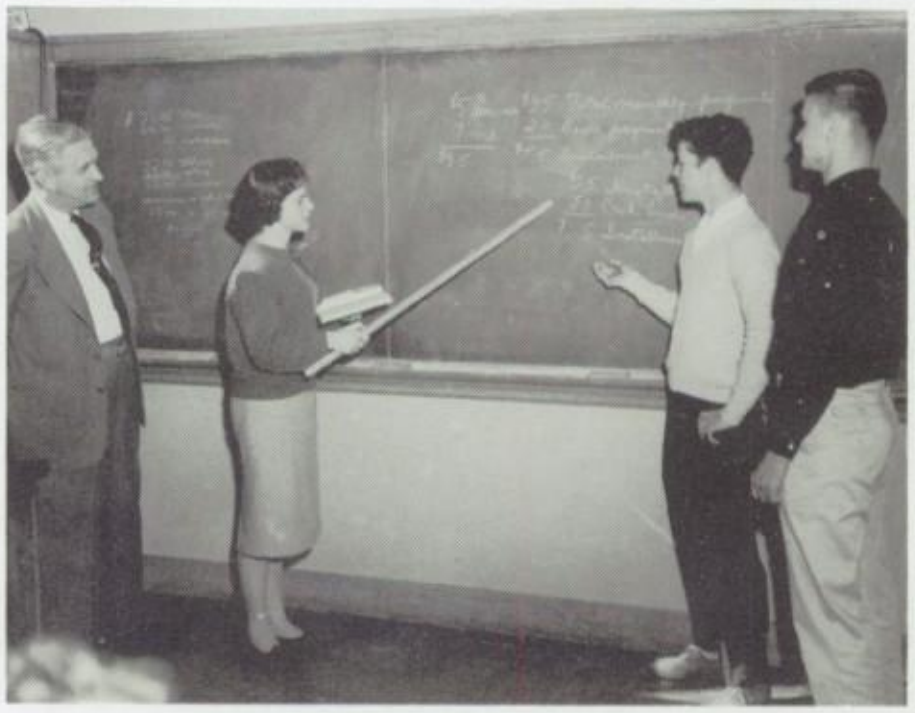
"With your brain and my pencil," what a way of saying we need teachers' help! Trig, analytic geometry, graphing, and calculus are combined into one course of work. Problems that are easy and problems that are tough give a wide range of homework and test material.



"With your brains and my lead pencil, we'll work these trig problems," says Mr. Fegely.

GENERAL MATHEMATICS

The age of today is confronted with continuous strives toward reaching the height of success. Mathematics, as well as science, emphasized more in the high school curriculum of today presents the students with a challenge to compete in world problems. Scientific, medical, and technological work require mathematics as a primary subject, and the basic fundamentals of mathematics are among the major requirements for most jobs.



These senior mathematicians take over Mr. Weir's class.

PHYSICS

Physics may be defined as the branch of science that deals with the laws and properties of matter, and the manifestations and transformations of energy. The students study light, heat, sound, electricity, and magnetism. The many experiments performed by the students and teachers contribute toward making the course an enjoyable and interesting one.

Junior physics students learned much from Mr. Snyder.

"Pueri et puellae" — "Boys and girls,"
as Miss Laubach translates.

"Buenos diaz Senor Hankee and Senorita Iasiello."
says Mr. Shoemaker.

LATIN

"No one who is ignorant of Latin can be called educated, for without it we do not have complete mastery even of our own language." Class after class continues to seek the outstanding values of grammar, literature, history, folk customs, and culture — and an occasional gay song fest. We have realized that our journeys along the Appian Way have been a basic tool in our journey to knowledge.

SPANISH

Spanish is the soft speech and vigorous literature of Latin America. The language, an outgrowth of Latin, resulted in a less uniform speech than its sister tongues, French and Italian. Whether in college, abroad, or at home, Spanish is an important asset for all estudiantes. Under the instruction of El profesor Shoemaker our students lubricate their mental powers.

LANGUAGES

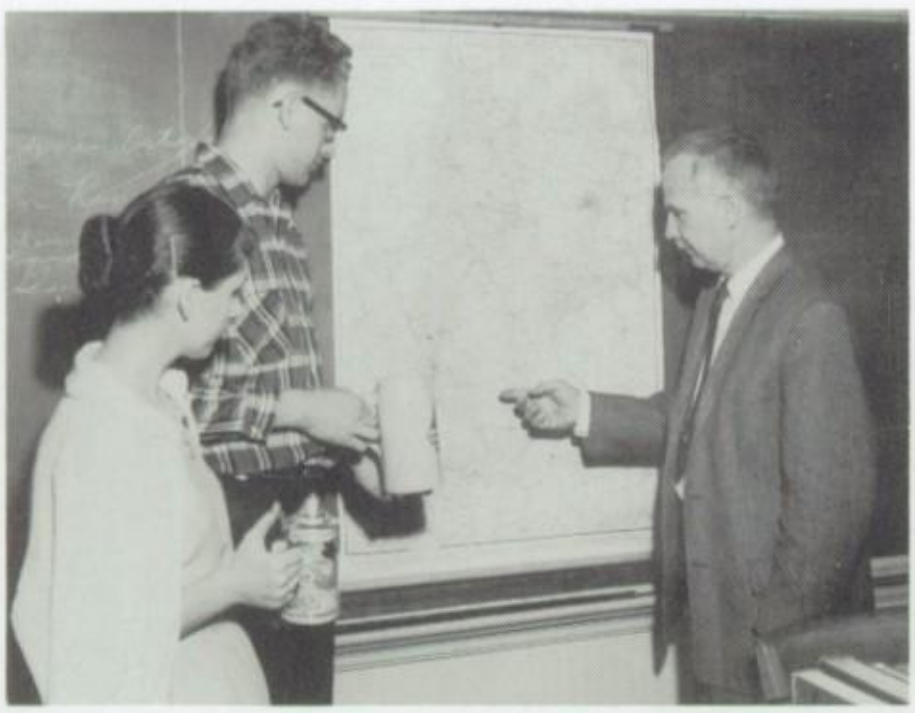
GERMAN

This is the language of Luther, Goethe, and Schiller. While German prose is often inclined to do anything but come "trippingly on the tongue," the best German verses are true music. Unser Dichter, Kermit Gregory, finds that the beginner is struck by the enormous length of many German words. Indeed German is an important asset to this predominantly Pennsylvania German region.

ENGLISH

English is the language of our people. To understand any subject well, we must first understand English.

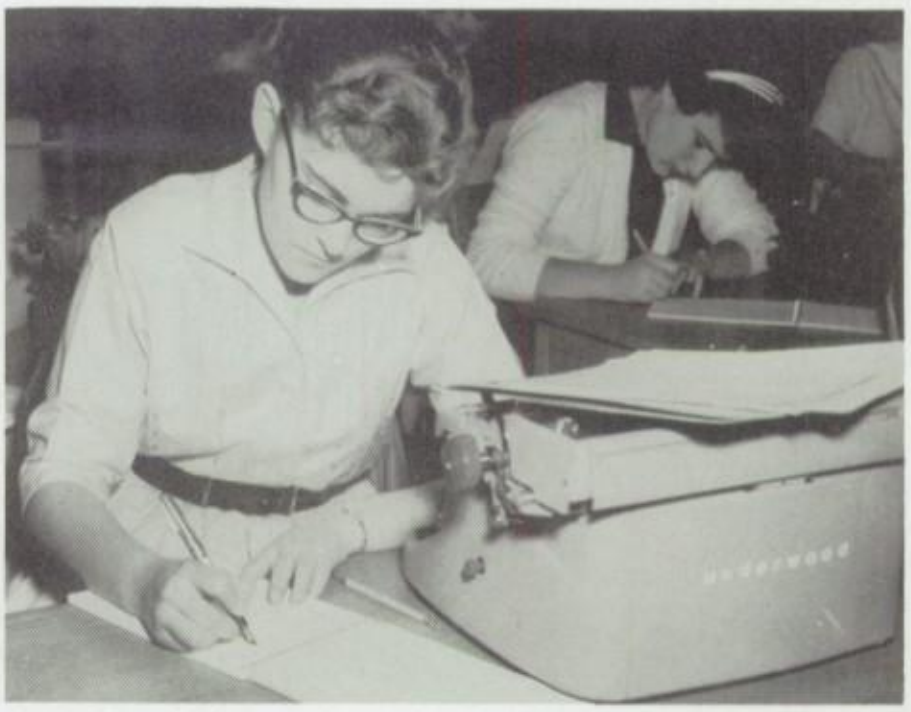
We meet the world's great authors and gain from each new thought to enrich our own thinking. From kindergarten to our senior year we stress good habits in speaking, writing, and reading. Our English composition folders follow us from seventh to twelfth grade. They show all our vices and virtues as budding authors.



Mr. Gregory took us through Germany,
teaching us practically everything.

Mr. Gunkle taught us many new phases of English.

D-e-a-r S-i-r; these are two of our busy secretaries.



The shorthand we learned will help us in the future.

TYPING

Typing, shorthand, and bookkeeping are familiar subjects which are generally connected with our Secretarial students.

Whether it be a speed breaking record in typing or an A transcrpition, these girls always strive to maintain their goals.

SHORTHAND

In shorthand we learn the art — and it is an art of curly cues, curves, and dots — of writing as much as we can as fast as we can and on as small a page as possible.

SECRETARIAL

OFFICE MACHINES

Giving the students a broader knowledge of how to operate different machines in an office is the job of Mr. Ivan Schneck. His work covers the task of demonstrating the simple to the most complex machines.

BOOKKEEPING

Tomorrow's bookkeepers are getting their bookkeeping education today from Mr. Ivan Schneck. These students learn how to balance budgets, keep records, and perform other tasks essential in the proper functioning of an efficient office. It is through bookkeeping that these future office workers learn some of the duties awaiting them in the business world.

IBM here we come — courtesy of Mr. Schneck.

Students of today — bookkeepers of tomorrow.

In psychology we discovered our fears.

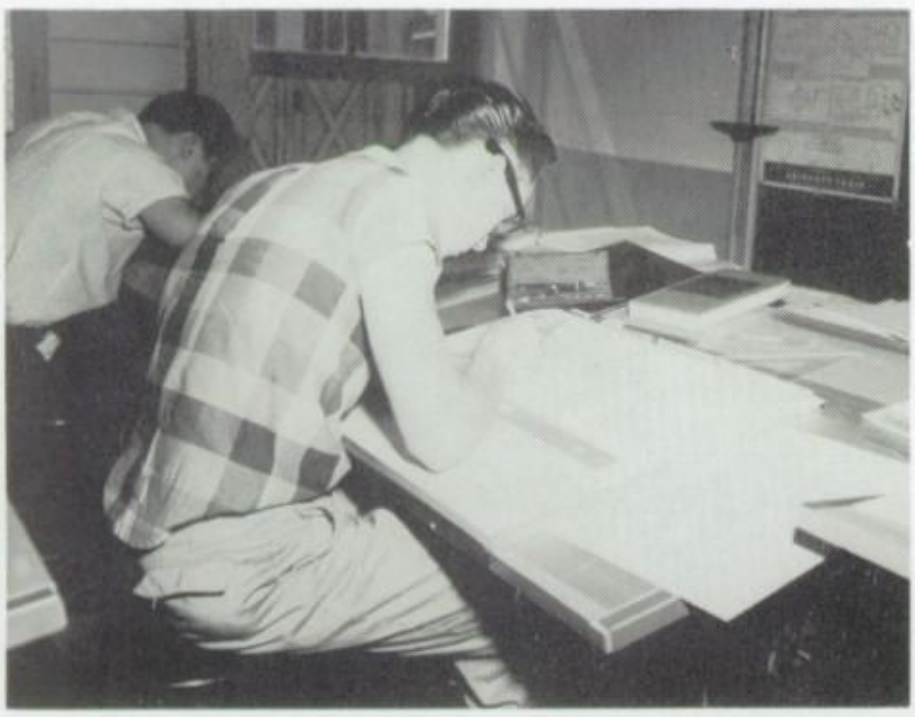
PSYCHOLOGY

The answers to a good part of everyday questions pertaining to an individual's thoughts can be found in the study of psychology. Steps are taken to present the student with a vivid picture concerning development stages from childhood to maturity. Another means of acquiring knowledge is the showing of motion pictures. Learning to associate and get along with people are two important factors that are considered and given recognition in the class. The main purpose of psychology class is to prepare individuals for the task of adjusting themselves in the world about them.

Puzzled in .P of D.? Mr. Lisetski helps out.

PROBLEMS OF DEMOCRACY

Living in a democracy does not exempt us from world problems, in fact it confronts us with a wider margin of problems. It is left to the future statesmen and authorities to solve problems pertaining to the world and to help the country in all possible aspects. After completing five consecutive years of studying various types of history we must now face the time to deal with local and national problems. This required course takes the daily newspaper as its main guide. Another phase covered in P. of D. class pertains to human relations. Through this course one learns clear, rational thinking in regard to our foreign neighbors.



What in the world is this, mechanical drawing?

MECHANICAL DRAWING

Mechanical drawing has been introduced in full scale this year. It is essential for all students who are interested in engineering, carpentry, or any field dealing with structural drawings. Under the guidance of Mr. Erdosy, Mr. Dotter, and Mr. Kleppinger the students are preparing for their future ambitions.

ART APPRECIATION

Week after week our seniors work under the guidance of Mr. Kleppinger to bring out their creativeness. Sculpture, paintings, and individual projects are produced and discussed. The aim of this class is to learn to appreciate the art that is always around us.

"Artists" display their creativeness.

MUSIC APPRECIATION

Melody, harmony, transposition and many more theory terms can be learned if you sit in on Mrs. Santee's music appreciation class. But not all is theory, for there are days when music is listened to and learned to be appreciated.

Music appreciators learn the fundamentals of music.

INSTRUMENTAL MUSIC

From "the realm of music," the band room, we hear the endeavors of future musicians. Mr. Becker teaches new songs and improves upon the old. Football season, spring concert, and other activities find this class preparing individually.

"1 — 2 — 3 — 4, begin on the downbeat".

Wally runs for a base hit.

GIRLS' HEALTH

Being in the age of hurry and worry, there is a tendency to forget about our health. Health class under the competent instructor, Mr. Oplinger, teaches us how to cope with our problems, whether physical, mental, or emotional. Functions of the glands, organs, muscles, senses, and the body in general is studied thoroughly. We are taught how to help ourselves and our fellow man along the path of growing up to be healthful citizens.

Judy jumps high as the rest of the class and Mrs. Wanisko watch.

BOYS' PHYSICAL EDUCATION

The basic goal of our high school is the development and preparation of our mind. However, health and exercise of our body is also highly important. To come to this achievement Mr. Erdosy, our physical education instructor, has given us this task, which we owe to ourselves. This duty is the conditioning of the body so that it can be coordinated with the mind. We come about this agreement of the mind and body in gym class by calisthenics, playing of football, baseball, and basketball, and other activities which take thinking as well as doing. Some say the ratio between physical and mental development is too great — we hope not.

Mr. Oplinger's health classes taught us much about hygiene.

GIRLS' GYM

Tumbling, basketball, and the rings are just a few of the multitude of activities Mrs. Wanisko plans for her weekly gym classes. She strives for the physical perfection that our school feels should always accompany a good scholastic course. Her tools consist of the necessary equipment needed for participating in the latest exercises and games. She also develops the desirable attitudes of teamwork and good sportsmanship as the year progresses.

PRINTING

Printing, the process used by magazines and newspapers, has become indispensible to world wide communications. From the printing of the Gutenberg Bible at Meinz to the printing of the Morning Call at Allentown, the basic principle for printing remains the same. This one statute is to tell everyone about anything of importance. At Northampton, for the past fifty years, we have been teaching boys and girls the art of printing. The shop itself is always filled with work. If programs, schedules, or report cards have been printed, then one can always dabble with a few more lunch tickets. Under the supervision of Mr. Alvin Fegely we at Northampton, through painstaking practice, feel quite proud of the material that comes from our print shop.

Another batch of programs are being printed.

Ready to leave for your two mile journey?

DRIVER EDUCATION

How to control automation? — this is our problem. This is also the reason why our school has adopted a driver education course. It has been proven over and over again that any tool, privilege, or power of mankind can either be used for right or wrong. The driver education classes are taught how to use this tool, privilege, and power, built into the automobile, correctly and efficiently. Under the able guidance of our instructor, Mr. Neubauer, we have come to master the mechanics and ethics of safe automobile driving. We are learning how to control automation!

HOME ECONOMICS

Appetizing food and beautiful clothes are both products of our Home Economics Department. Whether learning the rules of good etiquette, the fundamental facts of sewing and cooking, or the rules of good posture, our girls are always busy. The school realizes that the student of today is the homemaker of tomorrow, so they endeavor to supply the homemaker with adequate knowledge. The rooms in which the girls work are supplied with all the necessary equipment from spoons to a well-furnished living room. Mrs. Harned and Mrs. Standon are the home economics experts that educate these future homemakers.

Smile AFTER it comes out of the oven.

A SCHOOL CALENDAR

SEPTEMBER brings us back to school,
Studying and learning the "Golden Rule";
Summer fancies have been put aside,
For a better education now we stride.

OCTOBER meets with crowds and cheers,
As our gridiron works for a triumphant year;
Cheerleaders' voices are clear and loud,
The band in new uniforms is very proud.

NOVEMBER brings the colored leaves,
As our goal of victory we try to achieve;
Thanksgiving Day, Muhlenberg, and mums —
The Lehigh Valley Champs we again become.

DECEMBER fills the air with excitement and thrills,
The Vespers illustrate to all — Peace and Good Will;
Seniors eagerly attend the "Tinsel Twirl",
To enchanted music they gaily whirl.

JANUARY ushers in snow and ice,
The basketball team seeks the coach's advice;
Seniors rehearsing with much progress,
Make "Operation Ice Cube" quite a success.

FEBRUARY gives us a fling of romance,
Impatiently awaiting the Valentine Dance;
To Lincoln and Washington we pay our respect,
"Wisdom" and honesty their names reflect.

MARCH winds are swiftly blowing our way,
But spring will soon bring us warmer days,
The Seniors are working out the last details,
On the Amptennian which will soon be unveiled.

APRIL is the month for praise and glory,
To recall the joyous Easter story;
The Science Fair unlocks our minds,
To a better future for all mankind.

MAY is the time to evaluate our past,
Friendships — fond memories — forever will last;
Teachers, we thank you for all you have taught —
Your patience and teachings have not been for nought.

JUNE brings to an end our care free days,
As with joyful tears toward the future we gaze;
Diploma in hand, our goal we have met
Dear Old Alma Mater, we will never forget.

Beginning of school brought summer to an end,
Back to friends, books, and the old trend.

OCTOBER:

Attending Tri-Hi-Y initiations
Posed for some trying situations.

NOVEMBER:

Black and Orange over White and Brown
As we captured another Lehigh Valley Crown.

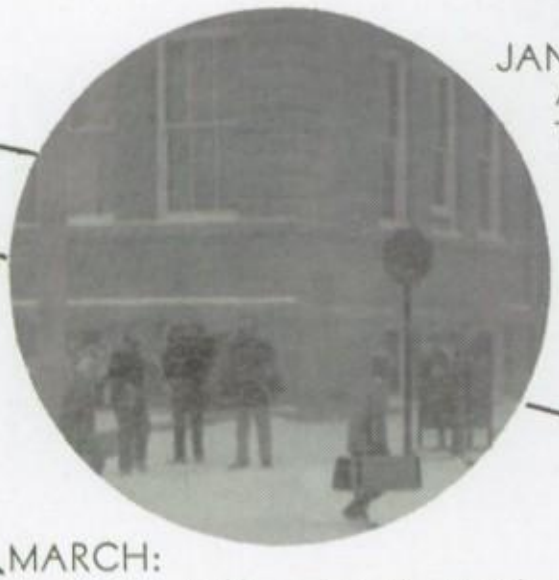
DECEMBER:

Speakers, singers, tableaux, et al
Christmas spirit rang through the hall.

HIGHLIGHTS 1960

JANUARY:
After many rehearsals came the day —
The seniors presented their class play.

FEBRUARY:
Music, refreshments, and the bop
Contributed to the Valentine Hop.



MARCH:
Coming in like a lion, the March snow blew —
We rejoiced at the announcement — "No school!"

APRIL:
Biology, chemistry, physics, and conservation
In the hands of our students — a flourishing nation.

MAY:
Young Rembrandts, Gauguins, and Van Goghs
Aided in the success of our art shows.

JUNE:
Vespers, Dinner Dance, Commencement, tears
Bring to a consummation our high school years.

STUDENT COUNCILS

The Senior and Junior High student governing bodies are the Student Councils, under the able direction and assistance of Mr. Alfred Laubach and Mr. Evan Hankee, respectively. It is the purpose of these groups to promote better study habits, better dress and manners, and to aid in the Junior Red Cross Drive. The council also sponsored pep rallies, promoted school spirit, and sponsored the wonderful proms which were reigned over by King, Dallas Vogel and Queen, Gloria Michael. Their main purpose is to enrich the lives of the students, faculty, and administration.

NATIONAL HONOR SOCIETY

Leadership, character, service, and scholarship are the principles of the National Honor Society. Its members consist of the upper fifteen per cent of the senior class who are most outstanding in serving their school and community. Their many activities included monthly meetings, a Christmas party, and a successful Valentine's dance sponsored for the student body.

Everyone enjoyed themselves at the Valentine Dance.

CHORUSES

The chatter of voices, a rattle of chairs, the shuffling of music copies . . . then the words "Everyone into his seat" . . . all is hushed . . . rehearsals begin.

There are three choral organizations here. The first is a group of 80 girls blending voices and efforts in Girls' Chorus. If you would rather hear the deep clearer tones of the male population, visit the Boys' Chorus. Then to get a roomful of sweet harmony we have the Mixed Chorus.

GIRLS' ENSEMBLE

One of the outstanding musical organizations of our school is the Girls' Ensemble, a select group of twenty-six girls picked from the larger Girls' Chorus. The group devotes much time and effort to the development of proper vocal habits, expression, and the establishment of a varied repertoire.

MIXED ENSEMBLE

If you fancy the lighter side in music, the Mixed Ensemble will suit your taste. These singers can make themselves at home in exquisite evening gowns or good old-fashioned overalls. They specialize in novelty numbers — "with motions please."

THE NORTHAMPTON AREA JOINT HIGH SCHOOL BAND

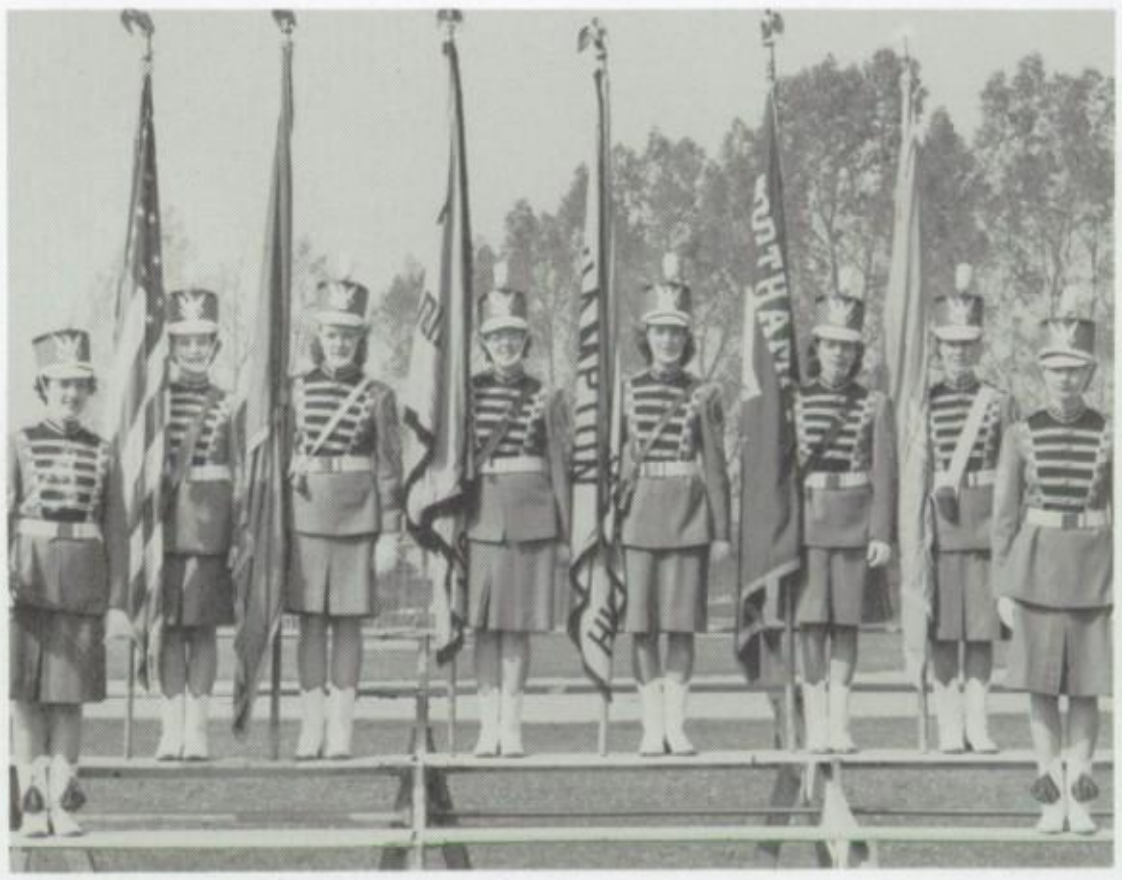
One of the most active organizations in our school is the senior band. Its activities start the first month of school when they practice eagerly for the oncoming football games. The band members, dressed in their new black and orange uniforms, marched to their rhythmic tunes as they participated in various parades and drills. An instrumental ensemble was chosen to play for contests, plays, and other school events.

As spring rolled around the entire band prepared for the annual spring concert. The Memorial Day parade, concert at Dorney Park, and Commencement are a few of the occasions the band performed at as the year came to a climax.

COLORGUARDS

Loyalty to school and country is carefully guarded by these eight girls. Our complete row consists of six colorguards and two bearers, who proudly lead the N.H.S. marching band. This year the squad was captained by Leona Arduini, who worked out various militaristic routines, which were capably performed at various events. The privilege of carrying this property was impressively displayed by this fine group of girls.

Left to right: L. Arduini, L. Kline, N. Snyder, J. Rodgers, R. Horvath, P. Nyce, B. Grube, M. Schmidt.



Majorettes, left to right, **first row:** D. Kolb, J. Nachesty, A. Sayuk, M. Zaun, B. Szilagyi. **second row:** S. Barter, J. Moyer. **third row:** J. Bennet, B. Ladick. **fourth row:** L. Roberts, C. Sharkazy. **fifth row:** J. Wunderler, J. DeCarlo.

MAJORETTES

Preceding the band while parading, one sees the proud N.A.J.H.S. majorettes. The group itself consists of thirteen high-stepping young girls. Clad in their new uniforms and clicking their shiny white boots, these snappy lassies happily displayed the school's black and orange. The various routines and parade marches were under the direction of their three leaders — A. Sayuk, drum majorette; M. A. Zaun and J. Nachesty, head majorettes. We are happy to say that, with Mr. Raymond Becker as supervisor, the girls did a fine job at all times.

CHEERLEADERS

"- - - Fight, Fight!" Soaring into the air with the greatest of ease are the "Rah-Rah" girls of N.A.J.H.S. The school's good-will ambassadors at most athletic events lead the cheering which urges our teams on to victory.

Co-captained by Mary Ann Vasilawsky, Judy Horvath, and Sonia Zaharchuck, the three seniors on the squad, the girls started their rigorous training the second week of school and continued practicing till the end of basketball season.

These versatile lasses prove that no obstacle is great enough to "wash-out" their school spirit. A prime example of this was the Palmerton football game where they led cheers in a continuous downpour and four inches of mud!

Left to right, **first row:** J. Horvath, M. Vasilawsky, S. Zaharchuk. **second row:** M. Hassler, J. Oplinger, Mrs. Wanisko Coach, M. Kochenash, L. Hunsberger. **standing:** L. Wall.

Editors' worries caused many sleepless nights.

With pen and ink, they created the "wise old owl."

Have camera, will travel.

AMPTENNIAN 1960

September of 1959 was a busy month for the **Amptennian** Staff. The theme "Wisdom" was chosen to coincide with the motto of the senior class. "The Wise Old Owl" was contrived by the deft fingers of our creative art staff to make the theme more interesting. The business staff contacted advertisers and solicited for patrons. The job of setting up the book was undertaken by the layout staff. The photography staff was kept busy scurrying to all the activities and sports events to capture them for our book of memories. The staffs have had many problems — lack of pages for so many seniors, where to put the write-ups, and many more controversies. They all seem trivial now as everyone enjoys the success of our yearbook, which is due primarily to the combined efforts of many people. We, the class of 1960, proudly present our reward — the **Amptennian** '60.

To the advisors screams of "help" echoed.

"Attention Courier Staff," Faculty advisor Harry B. Wall announces that all assignments are due today!

From the spicy gossip columns to the down-to-earth editorials, the Concrete Courier opens the door to the events and goings-on of all its students.

Assignments are in and another edition is off.

N CLUB

The N Club does much to support the school's sports activities. They sell booster tags, booster buttons, and collect advertisements for the Northampton-Catty Day book. The members selected a goat as mascot for the new school. We hope the N Club will continue to be an active and popular organization.

Knowledge through books — Miss Fluck helps these students along.

LIBRARY

If there is ever to be a fountain of knowledge, it will be a library. Our library with all its stored-in knowledge has become the major source of information in our high school. Miss Nelle Fluck, our friendly, energetic, and capable librarian, helps us, when need be, to find data for a class report, term paper, or any other task which includes the use of our library.

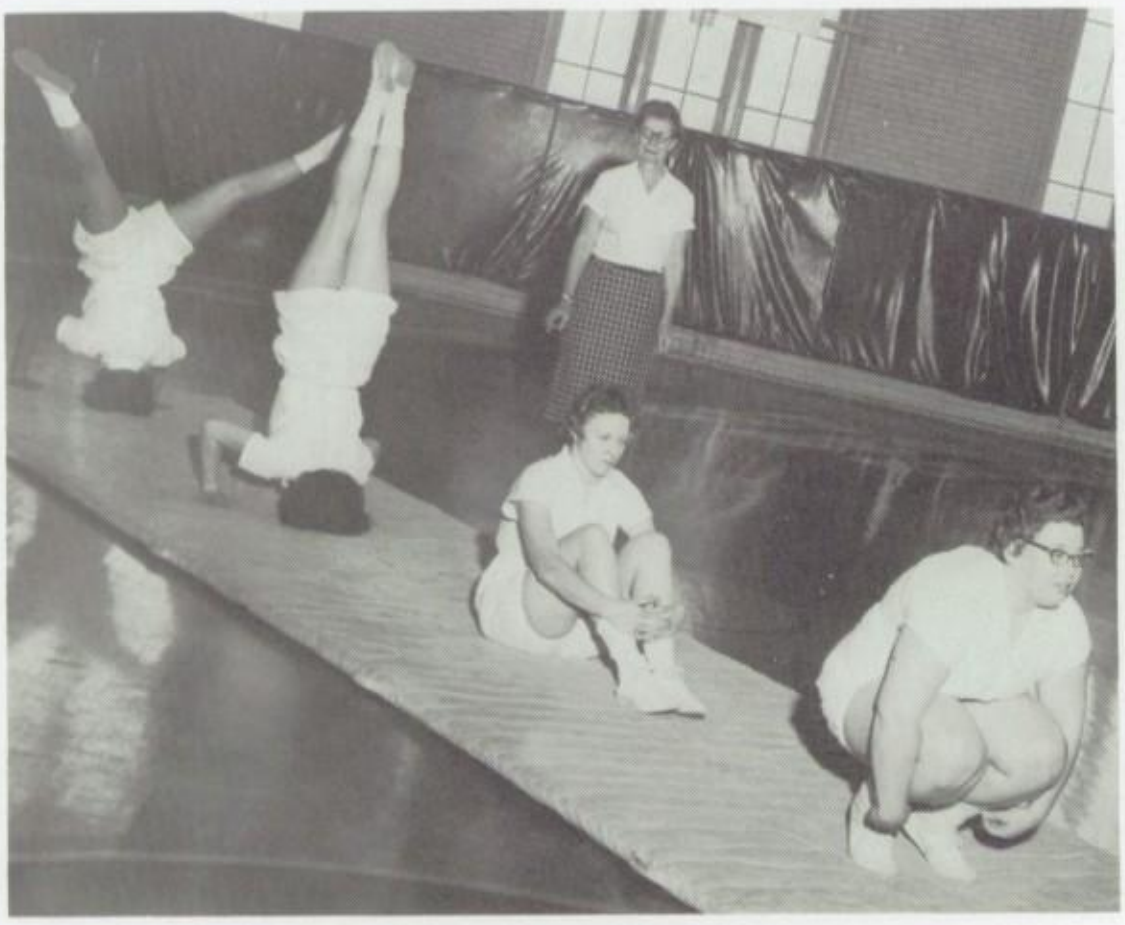
STAGE CREW

All the heavy work done behind the scenes before the performance begins, between acts, and when the show is over is efficiently executed by our stage crew. Mr. Harry Witemeyer, the advisor behind the scenes, helps the boys in getting their instructions straight. Without props, lighting, and the stage crew, no performance would be a success.



Mrs. Wanisko takes the girls through their gymnastics.

GYM TEAM

The girls on the gym team are selected by Mrs. Wanisko on the basis of their ability to participate in an active physical program. During the one period a week that they meet, they concentrate on various synchronous exercises, practice on the gym apparatus, participate in competitive team sports, and spend time improving their individual specialties. The well-balanced physical program is designed to make the girls more active and physically fit.

ASSEMBLY PROGRAMS

State policeman Irving Good showed us the rights and wrongs in traffic law obeying.

General Motors' representatives gave worthwhile tips to our classmates.

Both seniors and juniors helped "pep" the team for the Turkey Day game.

This year's assemblies have been rich and varied. The many talks were educational as well as entertaining. These programs were eagerly awaited and enjoyed by all, from 7th through 12th grade. By bringing in guest speakers, our school proved its interest in the young people of today.

Captain Aldo Candia from Allentown told us of teenagers gone astray.

Even Mr. Lerch is interested in learning more through hints from Mr. Lavery.

We journeyed, through pictures, to Europe with Mr. Miller.

Mr. Crawford adjusts projector before showing Alaskan slides.

The entire vesper chorus pauses for a formal picture.

CHRISTMAS VESPERS

The Thirteenth Annual Christmas Vesper Service provided a true Christmas spirit for an overflowing audience. Countless rehearsals and careful selection of musical arrangements went into this production. Silently expressive, tableaux and speakers, using modulated tones with the accompaniment of moderate Christmas music, tended to complete this well done service. The diligent workers who made this possible were Mrs. Thelma Santee and Mr. Raymond Becker — music, Mrs. Flora Obrecht — speakers, Mr. Dale Shoemaker and Mrs. Blanche Kent — tableaux, and Mrs. Mary Harned — costumes.

Vesper soloists sing out the glory of His birth.

Vesper speakers tell the Christmas story.

Mary and Joseph on the road to Bethlehem.

Then angels sang, "Glory to God."

The wise men bearing gifts from afar.

No room at the inn.

Accompanists Joan, Darryl, Margie, and Jane.

SYNOPSIS

A chilly title? Don't let it fool you! This hilarious play with a different story is set in an igloo somewhere in the far, far north. Prof. Southgate, a scientist, feels his family is being spoiled by too much civilization so he takes them to the frozen north while he pursues his scientific work and tries to adjust them to primitive living. Mrs. Southgate is miserable and longs for her bed of zinnias back home. Karen, the teen-age daughter, feigns snow madness while teen-age son, Andy, makes popsicles by the score. Their Aunt Mildred utters witty remarks as she watches them all suffer in their new environment. To top off their misery the professor invites a family of Eskimos to share their igloo. When it seems the end Prof. Southgate and his colleague Prof. Jones, discover Mr. C. C., a "beautiful" hunk of man — preserved in ice for some 7,000 years. When Andy inadvertently proposes to Kula and Karen falls in love with Mr. C. C., Prof. Southgate thinks they've had enough. But when he is ready to leave no one else is. Not until Mr. C. C. runs away and Kula refuses to marry Andy do they all promise to go home. Now Prof. Southgate decides to stay a while longer. Before he realizes it, he is lashed to a dog sled as everyone prepares to leave.

JUNIOR SPEAKING CONTEST

Mrs. Joan Fenstermacher presents awards to first place girl, Madelyn Schwartz; and first place boy, Darryl Dech.

Eight members of the Junior Class diligently put forth their efforts to make the thirty-fourth annual Junior Speaking Contest a success. The participants lived up to their honorary distinction by attending numerous rehearsals and following the advice of Mr. Kermit Gregory, who did his best to preside over this affair.

The following are the participants and their selections: Carol Kulp, "King Robert of Sicily;" Madelyn Schwartz, "Sixteen;" Mary Ellen Wolt, "Snoopopaths;" Dorothy Walkovits, "Cleopatra;" Darryl Dech, "Tongue-Tied Democracy;" William Fava, "The Atom — Death or Life Abundant;" Frank Fox, "The Cold War in the Roman Empire;" and Fred Kline, "Address Before the Virginia House of Burgesses." During the interim of speeches the music department rendered instrumental and vocal selections.

We could have danced all night.

THE PROMS

The highlights of the year reached their peak in social life as students directed their conversations toward the proms. The Memorial Community Center provided the setting for a perfect beginning of a perfect Christmas holiday by accommodating the multitude enjoying the 'Tinsel Twirl', December 23, 1959. The king and queen reigning over this affair were Dallas Vogel and Gloria Michael.

'La Fiesta de Amor' and a Spanish theme provided a romantic setting for the Farewell Prom on May 27, 1960. Under the guidance of Mr. Al Laubach, members of the Student Council actively aided in the preparation ot decorations and attended to the publicity for these gala occasions.

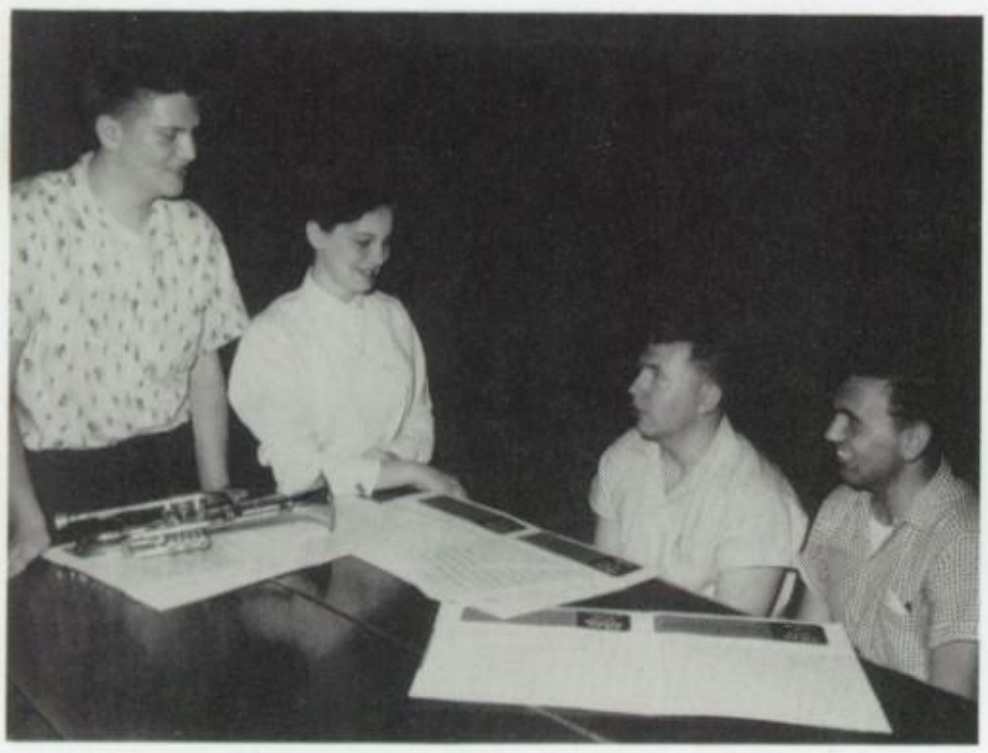
The mixed chorus sang out loud and clear.



Tranquilizers were not needed to calm these soloists' nerves.

SPRING CONCERT

The first half of the Spring Concert was devoted to the choruses singing Spring songs. The Girls' Chorus, clad in gowns, gave their selections. The Boys' Chorus, Ensembles, and Mixed Chorus followed, rendering various gay tunes. The band presented a concert, playing overtures, modern music, and marches.

DISTRICT CHORUS REPRESENTATIVES

District Chorus was held on January 7, 8, and 9, 1960, at Nazareth High School. The five students that represented N.A.J.H.S. are E. Brobst, tenor; H. Solt, tenor; R. Mann, soprano; L. Hiestand, tenor; J. Cole, bass.

"Work before play," was the motto at District Chorus.

"Music Man" proved to be a big success.

"MUSIC MAN"

The choruses, band, and ensembles presented selections from the Broadway musical, "Music Man." The choruses dressed in gay-ninety costumes with the boys wearing mustaches and sideburns. The finale consisted of the playing and singing of "Seventy-six Trombones," as the majorettes twireld to the snappy rhythm.

They heard bells on the hill in the song "Till There Was You".

Checkered vests, mustaches, sideburns, and straw hats brought "Lida Rose" to life.

SCIENCE FAIR

These students contributed hours of work to make the Science Fair a success. The main purpose of the fair, besides showing the superior scientific ability of our students, was to select entries for the Lehigh Valley Science Fair.

COMMENCEMENT

As we review our senior year, we pause to look back on the class of 1959. Our last memory of them is their Commencement Pageant, "This is What We Offer," held on June 10, 1959, at 8 p.m. in the auditorium of the Northampton High School.

They showed us what they had to offer by guiding us into their future through various scenes written, directed, and enacted by the seniors.

After the production of the pageant, the seniors proudly advanced to the stage to the strains of Pomp and Circumstance. Thomas Chuss, class president, announced the names of the respective seniors as they came forth to receive their diplomas. Through tear-glistened eyes they looked toward the future as they ended their twelve years of schooling with the singing of their class song and Alma Mater.

BASKETBALL

Northampton's basketeers were coached by Howard Dotter and assistant, Joe Keglovitz. Leading the Kids in scoring was Willard Oplinger. Seniors on the roster were Gerald Rudelitsch, Douglas Bilheimer, Julius Schneider, and Joe Marton; Marton led the seniors in scoring. The Kids were not very successful in their bid for league championship as they dropped 9 and won 5. We wish next year's team and Coach H. Dotter the "Best of Luck."

BASEBALL

Northampton's baseball team led by five seniors and four juniors are on their way to another league crown. Although suffering one defeat to Emmaus, they are still in contention for the championship. Players who have been sparking the "kids" are seniors — Lou Shimoskie, Jim Marchak, Dal Vogel, Mike Vetovitz, and Larry Lakatosh. Underclassmen are Willard Oplinger, Brian Brownmiller, John Siekonic, and Russ Mikovitch. We wish the team luck and hope they can again repeat as L. V. I. A. A. champs.

TRACK

Northampton's track team this year compiled a record of 4 wins and 1 defeat for second place in league competition. After dropping the opener to Emmaus by 2 points the "kids" downed the remainder of league competitors. Although no records have been broken this far, Rudelitsch and Schneider, who is sidelined because of injury, have come very close in doing so. We know "our" cindermen will make a good showing at the L.V.I.A.A., District, and State track meets.

SENIOR SUMMARY

As our graduation day draws near,
We recall the memories of the year.

The '60 **Amptennian** was started with haste,
And each staff worked hard with the best of taste.

The proms were held in May and December,
Those are events we'll always remember.

All Seniors were anxious for the day,
When the Senior Class presented its play.

At the Christmas Party we all had a chance
To talk to Santa and also dance.

In sports our boys sure took a test,
But came out on top to be the best.

March finally came with the Science Fair,
Scientists and professors prepared with care.

In April was heard the familiar sound,
As the Spring Concert music circled around.

We all enjoyed Washington, some distance away,
But we had to come back for Graduation Day.

A year of fun and pleasure passed,
As Graduation Day arrived at last.

And as we left the graduation stage,
We remembered, "Knowledge in Youth is Wisdom in Age."

More secretaries for the Bethlehem Steel.

Our future secretaries are always kept busy.

Christmas party's energy resulted in later classroom fatigue.

Eskimos they aren't, but Eskimos they'll be.

Would you believe it? This is gym class!

PATRONS

We honor our patrons upon this glad day
Whose faith so unchanging is with us always,
So steady and tireless, so pure and so true —
It ever enfolds us in all that we do.

We honor our patrons upon this glad day
Whose courage and precepts do not go astray.
We'll follow them always in things that we do
And cherish their friendship, so tried and so true.

We honor our patrons upon this glad day
And wish them much happiness upon life's way.
Many thanks for their deeds, both kind and both true,
Dear patrons our class bids you a fond adieu.

Dr. Eichler is off to Russia.

We're bomb free!

Mr. Pany's perch for "fact" tests.

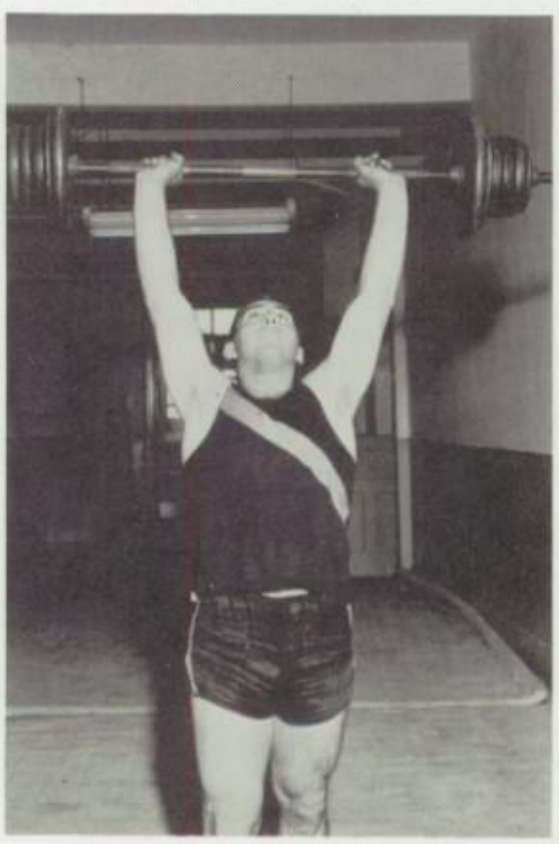
Sitting on air?

Merry Christmas — Mr. Gregory!

Up and over, Gerry!

Mimeograph with a smile.

And they saw the light.



Wishing won't do it!
